Dear Mr. Risi;

Following is a petition to establish street cleaning on 25th rd between 18th st and 21st St.
This has been signed by property owners and tenants on 25th Rd.

This purpose is to:

- 1 Keep streets clean and safe, especially for children
- 2 Keep pests such as rodents at bay
- 3 Make sure cars are moved so the street is not used for long-term parking as is often the case now.

It is important however that the street cleaning be restricted to only once per week for each side of the street. Currently street cleaning on cross-street 18th St is only 2 times per week, which would fit the 25th Rd requirements.

We hope that the community board will present this to the Department of Sanitation so we can enact this proposal.

Regards
