The Council of the City Of New York

Office of Daniel Dromm

37-32 75th St

Jackson Heights NY 11372

Dear Councilman Dromm:

The Old Astoria Neighborhood Association was recently made aware of and supports your proposed legislation to paint curbs near Fire Hydrants red to indicate No Parking, and reduce the distance from the hydrant in either direction from 15 to 10 feet. We feel this would greatly increase the number of available parking spots in NYC without extensive capital investment.

One point of clarification: Could you advise the exact method of measurement? Is it from the center of the hydrant to the wheel or bumper of the car?

We are also sending a copy of this letter of support to the offices of Councilmen Costas Constantinides and Jimmy Van Bramer to ask that they also support this legislation.

We appreciate your efforts in trying to improve the quality of life of all New Yorkers.

Regards

Richard Khuzami

President

Cc: Councilman Costas Constantanides

Councilman Jimmy Van Bramer
