**Councilman Costa Constantanides
31-09 Newtown Ave
Suite 209
Astoria NY 11102**

Dear Costa:

The Old Astoria Neighborhood Association (OANA) appreciates your efforts in securing a route study from the Department of Sanitation New York. And we strongly support the results of this study. When implemented, our streets should be much cleaner, with the added advantage of parking spots enjoying a much greater turnover.

Also, this will greatly improve the impressions of our neighborhood to those disembarking from the Astoria Ferry Landing.

We do ask that the street cleaning be extended to include 26th Ave from 2nd street eastward to the dead end.

The intersection at 2nd Street and 26th Ave includes a major development (Hallets Point), supermarket, plus a popular city park and ballfield. (Whitey Ford Field), and will prove to be a vital intersection effecting the quality of life of many people.

If you would like further comment, please do not hesitate to ask.

Regards

Richard Khuzami	President OANA
Kevin Hernandez	First VP OANA
Brett Harris	Second VP OANA
Diane Kantzoglou	Treasurer OANA
Christina Sidoti	Secretary OANA
